CPL A. Delancy (Delancy) 2228

The day is Wednesday, the date is January 24, 2007, the time now is 2149. The following interview is in connection with the departmental shooting at 1513 Shellford Lane, in Accokeek, Maryland. Uh, this interview is being conducted by Lt. Walls ID 1398, in the 1500 block of Shellford Lane.

Walls: For the record, would you state your full name, rank, identification number and duty assignment?

DeLancy: Corporal DeLancy, ID 2228, Oxon Hill Patrol.

Walls: Okay, Cpl. DeLancy could you spell your first name for the record?

DeLancy: Yes, A-n-c-i-l.

Walls: Okay, is there a middle initial?

DeLancy: B as in Boy.

Walls: Okay. Okay, and Officer DeLancy this, uh, interview is being recorded with your knowledge and consent, is that correct?

DeLancy: Yes it is.

Walls: Okay, uh, Cpl. DeLancy you had an, uh, occasion to respond to 1513 Shellford, uh, for a call for service, correct?

DeLancy: Yes I did.

Walls: How did you come to, uh, get that call?

DeLancy: The call came out as a signal 13, and I responded.

Walls: Okay, and where did you respond from?

DeLancy: I was at the location of the, um, Deal and Marcy Avenue.

Walls: Okay, and did you respond with anybody else?

DeLancy: Um, on the way there were three other cruisers in front of me.

Walls: Okay, and when you arrived on the scene, um, what officers did you see on the scene here?

0000013

DeLancy: I, when I got out of my cruiser I ran to the door, and I saw Cpl. Jones inside the house.

Walls: Okay, and Cpl. Jones you know his ID number?

DeLancy: No I do not.

Walls: Okay, do you work with Cpl. Jones?

DeLancy: Uh, I use—we used to be on the same squad. We're on different shifts now.

Walls: Okay, and you know his first name?

DeLancy: George.

Walls: Okay. Um, did you have any contact with the off duty unit inside 1513?

DeLancy: Yes I did.

Walls: Okay, and uh, what if anything did you hear him say?

DeLancy: Uh, when I responded up stairs I saw the two, uh, guys, I know on the floor and they were being worked with. Uh, fireboard was working on them. I then saw the officer, um, I asked him if he was okay. Um, actually I told him he can go downstairs and I'll stay up here with them. He said he just wanted to get them out his house. Um, basically he told me that they were there delivering, um, some items and next thing they know they didn't want to get out the house and one of them punched him in the face, is what he told me.

Walls: Okay, did you notice any injury on the off duty officer?

DeLancy: I did see a slight, uh, cut—I believe to his right cheek. I'm not actually certain of that, but I did see a, a cut somewhere on his face. Or either cheek or forehead. I can't remember correct.

Walls: A cut?

DeLancy: A cut or a scrape, a scratch.

Walls: Okay, was it bleeding?

DeLancy: No.

Walls: Okay, was it superficial then?

DeLancy: Yes.

Walls: Okay, um, when you, when the off duty made that statement to you, did, did you ask him what happened or did he just offer you that information?

DeLancy: No, he just offered the information, I did not ask him what happened.

Walls: Okay, can you tell me, um, exactly what he told you, um, as detailed as you can?

DeLancy: Yes. I asked him if he was okay. He said, yes. He's okay. I told him he can go downstairs and I'll stay up here with them. He said, no, he just wants to get them out of his house. He just wants the guys out of his house. Uh, then he told me that they were delivering some items to his house. Then they were walking around the house and he said, his wife and child was at home. And he told 'em they have to leave. And at which time one of them punched him in the mouth. And that's as fff—where it ended.

Walls: Okay—

DeLancy: The, the story ended from what he told me. But then some officers told him to come downstairs and that's when he, he did go downstairs.

Walls: Okay, so they basically interrupted a conversation—

DeLancy: Yes—

Walls: and asked him to come downstairs?

DeLancy: Right.

Walls: Who were those officers?

DeLancy: I remember seeing, uh, the detectives Stacy, uh, Hampton, out of Oxon Hill.

Walls: Okay.

DeLancy: He was waving to him to come downstairs.

Walls: Okay, and the, um, other officers, uh, in house, were they in a position to hear that conversation?

DeLancy: I was the only one upstairs at the time.

Walls: Okay and fireboard was already on the scene?

DeLancy: And fireboard was on scene, yes.

Walls: And how many fire personnel were, were there?

DeLancy: Uh, there were two each one, two for each person.- So—

Walls: Okay, so four—

DeLancy: four of them all together.

Walls: Okay.

DeLancy: At that time. Until more came afterwards.

Walls: And, um, where in the house did this occur?

DeLancy: It was on the upstairs in the, uh, hallway area. While one, one guy was at the, I believe was at the master bedroom doorway at the top of the steps. And the other guy was down on the hall, um, was there's a bathroom and then there's another bedroom there.

Walls: Okay, could you see that they were injured?

DeLancy: Yes I could.

Walls: Okay, and where were they injured?

DeLancy: The first person that was by the master bedroom I saw a gunshot wound to his stomach. And I believe he had one to his, to his, um, leg. Because he's lot of pain and trying, trying to move his leg. The other guy, uh, suspect, I saw with a gunshot wound to the chest, um, and also to his leg. Those are the only injuries I could see at the time.

Walls: Okay, and uh, did you notice anything laying around on the floor?

DeLancy: Yes I did see, uh, two bullet cases on the floor.

Walls: Okay, just casings?

DeLancy: Yes.

Walls: Okay. Um, what about the off duty's weapon?

0000016

DeLancy: I did not see his weapon.

Walls: Okay, did you make any inquires about his weapon?

DeLancy: No I did not.

Walls: Did he make any statements to you about where his weapon was at that time?

DeLancy: No he did not.

Walls: Do you know if he was wearing it?

DeLancy: No I do not know.

Walls: Okay, um, and once, uh, detective—

DeLancy: Hampton.

Walls: Hampton, um, asked him to come downstairs what happened after that?

DeLancy: I don't know what he, uh, what he went after that. I know he did go downstairs but after that I'm, I believe he left, he came outside. But I'm not absolutely certain.

Walls: Okay—

DeLancy: Cuz I was paying attention to the suspects.

Walls: Okay, what did you do at that point?

DeLancy: I just stood there because, uh, one suspect was handcuffed and the other was not. So I stayed there with the one that, right in between both of them keeping my eye on both of 'em, since one of them was not handcuffed. Um, asked fireboard did they want handcuffs off the other one. And she asked me would I stay there. I said, yes, I'm here to, um, keep an eye on them. And then she said, yes, okay, we can take off the handcuffs. At that time, um, Cpl. Jones came upstairs with a handcuff key and removed the handcuffs off the first suspect.

Walls: Okay and then what did you do?

DeLancy: I continued to stand there until fireboard, other fireboard members came and, um, and when they were taking him out. I stay with the second suspect. The one that was shot in the chest. Um, I came outside with him. I got in back of the

ambulance with them and we, uh, proceeded to, uh, Pine and 210, which is where the helicopter landed for them.

Walls: Okay, and so you stood by, um, they were loaded on the helicopter?

DeLancy: Right. I didn't go to the helicopter. I stayed with the ambulance.

Walls: Okay, and what did you do after that?

DeLancy: Then I got into the car with my sergeant and came back to the scene.

Walls: Okay, and did you have any duties and responsibilities once you arrived back on the scene?

DeLancy: No I did not.

Walls; Okay. Okay, Cpl. DeLancy is there anything, um, regarding this incident, uh, that we haven't discussed that you think maybe important, something we haven't talked about?

DeLancy: Uh—

Walls: Any observations you made?

DeLancy: No, none at all.

Walls: Okay, and uh, the other officers on the scene were Officer Jones and ?

DeLancy: Right. Cpl. Jones was, was the first one here. He was, he was the only one in the house when I got here. Um, a group of us did get here together but I actually ran ahead of them.

Walls: Okay.

DeLancy: And went in the house. Uh, it was two Forest Heights officers, I know that.

Walls: Okay. Is there anything else?

DeLancy: No that's it.

Walls: Okay, uh, any other additions or corrections to this interview that you would like to make?

DeLancy: No

Jordan: No sir.

Reichert: Hear any of 'em talking about what happened?

- Jordan: I heard a few, I can't recall any names or anything like that. Uh, just heard that there was an altercation in the house.
- Reichert: Anything more than that did you hear?
- Jordan: Uh, no that, they chased 'em up the stairs and, uh, that's when he fired on 'em.
- Reichert: You say somebody, you heard somebody say they chased them up the stairs?
- Jordan: I believe so.
- Reichert: Do you know who would have said that?
- Jordan: No, there was so many people, so many things going on I wouldn't know.
- Reichert: Did more people arrive in the house after you got there?
- Jordan: Yes, numerous.
- Reichert: Uh, policemen and fire, fire personnel?
- Jordan: Yes, both.
- Reichert: Who was all riding on your fire truck that night?
- Jordan: Uh, Kathryn Fortgang was driving. I was in the seat, or in the passenger seat. And back I had, uh, Ricky Claggett and Russell Sptuytte. And on the ambulance was Josh Carlson driving and Christina Beavers on, uh, in the officers seat and Floyd Gillis was riding in the Chief's car.
- Reichert: And when you initially, after you did your initial assessment, what did you determined needed to be done next?
- Jordan: Uh, I told, uh, Chief Gillis that we needed to fly my patient out. Um, I told him how many times he was shot and, uh, he definitely needed to go to a trauma center and we needed another medic unit. Uh, that we would could give proper care to both patients.
- Reichert: And what happened, uh, what happened next after you treated him and cut off his clothes, that kind of thing, what happened next?
- Jordan: Uh, we continued treating, uh, for both wounds. The right knee and the upper abdomen, uh, wasn't too worried about the mouth, cuz it just looked like a minor

injury. Uh, he had much more serious injuries, uh, the medic unit got there, I started assisting the medic unit. Uh, or the medic, the paramedics with their patient care. Um, the, starting the IV line, uh, and just continuing to wrap the wound. We loaded the patient up on, uh, what's called a Reeve stretcher. Just a flexible stretcher. Um, walk him down the stairs, after he was the second one. The first one was a higher priority so he went down the stairs first. And then we transported our patient down the stairs.

Reichert: But your patient was located closer to the steps, is that what you said---

Jordan: Yes—

Reichert: But the other patient went first?

Jordan: Yes.

Reichert: And uh, when you got to the house to where he was being carried out on the stretcher, how long do you think you were there?

Jordan: Probably twenty minutes, I'd say.

Reichert: And when you leave the house, where do you go?

Jordan: Uh, I was in the back of, the medic unit Clinton Medic Unit with the one medic, uh, and the EMS 14, uh, which another medic. He's a, EMS Supervisor. And I worked with them in the back the whole time as we went to the landing sight.

Reichert: Are you with Brandon the entire time, once you—

Jordan: Yes—

Reichert: get on the scene?

Jordan: Yes until I put him in the helicopter.

Reichert: And did he make any other statements that we haven't talked about?

Jordan: Um, no. I mean, as I was walking from the helicopter, I told him I was putting him in the helicopter and he'd be with another paramedic and, uh, that, she'd be taking him to the hospital and he told me thank you. And that was it.

Reichert: Uh, did he make any other statements that, that you haven't told me about?

Jordan: No.

Walls: You said that, uh, the homeowner had hits to the face?

Jordan: Yes.

Walls: Can you describe them a little?

Jordan: Um, it, it looked like, I can't exactly remember where, but um, it looks like just kind of a couple punches. I don't think it was a weapon or anything like that. Uh, I don't recall seeing any blood. I remember, uh, seeing some swelling I believe and that's about it.

Walls: Okay, and where would you see the swelling?

Jordan: Oh in his face, uh, I believe around the cheek area, I'm not quite for sure. I just everything was going so quickly.

Walls: And you said it was a couple hits?

Jordan: Yes.

Walls: Okay how do you know a couple?

Jordan: Um, it looked like different kinds of swelling, in different places of the face.

Walls: Did you have any conversation with the homeowner?

Jordan: I just asked him if he was okay? Um, he told me he was. I told him I asked him if he wanted to go to the hospital. He said, he did not. And that was it.

Walls: Did he tell you that he got hit?

Jordan: Uh, yes.

Walls: Did he explain where?

Jordan: No, he just said in the face a couple times. That's all he said.

Walls: Okay. Um, and you were, um, taking Brandon down the steps you were actually physically helping?

Jordan: Yes.

Walls: I take it he was on the backboard?

Jordan: Uh, he was on a flexible reeve stretcher.

Walls: Okay, and um, when you were taking him down the stairs, did anything fall off the stretcher that you took note of?

Jordan: No.

Walls: Nothing at all?

Jordan: No.

Reichert: And the injury to Brandon's face, can you, what kind of injury was it?

Jordan: Um, it, it looked like the two top teeth, um, looked like someone had either struck him with a fist or, I, I some type of object. Just a, and there was a little blood, um, that's about it.

Reichert: Blood on the inside or the outside of the mouth?

Jordan: Um, both—well more the inside.

Reichert: And he had said, he had actually said he'd been s hot or something?

Jordan: Yes he said he'd been shot in the mouth. Uh, however he was not.

Reichert: Okay. Anything else I haven't asked you you thinks important?

Jordan: Um, we went back down to the house afterwards to, uh, about I guess a half hour 45 minutes later to transport, uh, Mr. Washington to the hospital.

Reichert: And did you respond on that, that call as well?

Jordan: Yes I did.

Reichert: Did you have any conversations with Officer Washington?

Jordan: Yes I did.

Reichert: What, what did he say then?

- Jordan: Um, really I couldn't get in the house, uh, they wouldn't let us in the house, uh, because he was, I, he was talking to somebody. Um, so we had to wait outside for about ten minutes. Uh, after he came out, I asked him if he wanted to go to the hospital. He said, he did. Uh, I told him to follow me. Then I showed him to the ambulance, uh, Bryans Road ambulance had arrived and we walked him to the Bryans Road ambulance, uh, right before we got in the ambulance he walked his keys over to his next door neighbor to give to his wife and daughter. And uh, then I helped him in the ambulance that was it.
- Reichert: Did he say what had happened at that time?
- Jordan: No.
- Reichert: And what, did that in fact be the same, was that the same person you saw earlier when you first arrived?
- Jordan: Yes. Yes it was.
- Reichert: Okay.
- Walls: When you walked, uh, were walking out, were you with him when he handed his keys to his wife and daughter?
- Jordan: Uh, no. he, he walked by, uh, with another officer I believe and went in the house, I believe, um, and we just stood by the ambulance waiting. We were told to just kinda wait.
- Walls: Can you describe that officer he was with?
- Jordan: No, there was so many at that time. I—
- Walls: Was he uniformed or plain clothes?
- Jordan: Uh there was numerous officers around him. Um, from the point he walked out of the house, after we waited, and until we put him in an ambulance, there's numerous officers around him. Uh, he shook a couple hands, did things like that and then went in the house.
- Reichert: So he walks out of one house and goes to another house?
- Jordan: Yes.
- Reichert: How long was he in that second house?

0000132

Jordan: Uh, all of five to ten seconds at the most.

Reichert: And that was, you understand he was getting, he was giving somebody his keys?

Jordan: Yes, his wife and daughter I believe.

Walls: And where was that house located?

Jordan: uh, right across the street.

Reichert: And what house did he come out of?

Jordan: I'm not quite sure.

Reichert: Okay.

Jordan: Just one of the ones across—I mean, I, I'm, I don't know exactly if he went in. I know he walked up towards the front door. Uh, at that time I was taking care of other things. So I'm not sure if he actually walked in the house or just handed them through the front door.

Reichert: But, but I guess the point I'm trying to get at, it's clear he was in, he was in two different, he was, he came out of one house and went to a second house to get rid of his keys?

Jordan: Yes. Yes.

Reichert: And the second house where he turned over his keys he wasn't, may have gone in, may not have.

Jordan: Right.

Reichert; And if he did, he wasn't in there but a few seconds.

Jordan: Right.

Reichert: Five to ten I think is what you said.

Jordan: At the most.

Reichert: Okay, anything else based on those couple of questions?

Uh, the patient walked outside the house, uh, the patient stated he was assaulted during the altercation. Patient mouth was swelling, patient had a ice pack on his mouth. Patient chief complaint was neck and back injury. Upon assessing patient, when checking, uh, all the extremities patient was in pain. Patient had a ice, uh, placed a collar on patient and backboard for spinal mobilization. Check vitals, patient was stable, patient kept complaining about face hurting. There was visual signs of swelling. Patient had no known allegories. Patient had no known history. Only asked questions that was pertaining to my assessment. Washington: Right, my, my prior history of as a, as a EMS provider is my, my basic job is only ask questions pertaining to the, the patient assessment only. Um, that is my job.

Any other questions would be in appropriate and out of line, so. I, I stay away from that part of it.

Walls: Okay sir. Did, uh, Mr., uh, do you know the name of the patient?

Washington: The name of my patient was Keith Washington. ==

Walls: Okay and you were in the back of the ambulance with him?

Washington: No sir. None at all. I, no, no, nothing other than what we needed for patient assessment.

Walls: Okay, did you have any other interaction with anybody else on the scene, other than, uh, the patient, Mr. Washington?

Washington: Uh, I don't know. I can't, I can't recall that, because that, like I said, that's not the way I practice. Uh, I stayed away, I stayed on my part and I let them do the

investigation. Cuz that was none of my business. Uh, so I pretty much stayed away from 'em.

Walls: Okay sir. Are there any additions or corrections to this interview that you would like to make? Anything you'd like to add that you think may be important?

Washington: Uh, it's very important that, to know that the swelling on his face is consist, my experience being a EMS provider, is consistent with assault.

Walls: Okay.

Washington: Being assaulted. Uh, it is very important to know that when I checked his extremities that he was in very much pain. Which means that, how this, you know, something happened other than him just falling or something. I can't, I, I don't know, like I said, it's none of my business but it's consistent with assault because when I checked him from neck down, he was in extreme pain.

Walls: Okay, sir, anything else you'd like to add?

Washington: That's it sir.

Walls: Okay, is this statement true and correct to the best of your knowledge?

Washington: Yes sir.
